

# Basic HTML

1. Download the week03.zip file. Follow the guidelines and do the necessary modifications to the ChocolateCake.html to look like the web page given in ChocolateCake.jpg and ChocolateFrosting.html to look like ChocolateFrosting.jpg.
2. At the bottom of both pages, add a line that indicates that the copyright of that page belongs to "Sandy's Chocolate Cake in Taste of Home February/March 1994". Use character entities to achieve the copyright symbol. Use the footer element to position the line.
3. The ChocolateCake.html page must have different sections for Ingredients, Directions and Nutrition Facts and ChocolateFrosting.html page must have different sections for Ingredients and Directions
4. Resize the images to 300\*300 and position the images to centre. Add a caption to the images. Use the <figure> element to achieve the caption effect.
5. In the file ChocolateCake.html, find the line "Prepare Chocolate Frosting" and create a link. Clicking on this link should lead to the "ChocolateFrosting.html" that you created previously.
